Entomol. exp. appl. **60**: 309–311, 1991.

Index to volume 60

D. G. James, Maintenance and termination of reproductive dormancy in an Australian stink bug, *Biprorulus bibax* 1
B. N. Barnes, Evaluation of techniques for monitoring emergence of the banded fruit weevil, *Phlyctinus callosus*, in deciduous fruit orchards 7
Yong-Biao Liu, A. R. Alford and M. D. Bentley, A study on mode of antifeedant effects of epilimonol against *Leptinotarsa decemlineata* 13
E. A. Bernays, J. J. Howard, D. Champagne and B. J. Estesen, Rutin: a phagostimulant for the polyphagous acridid *Schistocerca americana* 19
H. Eichenseer, D. L. Dahlman and L. P. Bush: Influence of endophyte infection, plant age and harvest interval on *Rhopalosiphum padi* survival and its relation to quantity of N-formyl and N-acetyl loline in tall fescue 29
K. Padmavathamma and G. K. Veeresh, Effect of larval age and dosage of nuclear polyhedrosis virus on the susceptibility of diamondback moth, *Plutella xylostella* 39
R. Ramachandran and Z. R. Khan, Feeding site selection of first-instar larvae of *Cnaphalocrocis medinalis* on susceptible and resistant rice plants 43
S. K. Shen and P. F. Dowd, Detoxification spectrum of the cigarette beetle symbiont *Symbiotaphrina kochii* in culture 51
D. S. Walters, J. Harman, R. Craig and R. O. Mumma, Effect of temperature on glandular trichome exudate composition and pest resistance in geraniums 61
K. E. Ward, S. B. Ramaswamy and T. E. Nebeker, Nutritional performance of first and penultimate-final Instar bagworm larvae on two unrelated hosts as influenced by host of origin 71
R. N. Wiedenmann and R. J. O'Neil, Searching behavior and time budgets of the predator *Podisus maculiventris* 83
Short communication
C. A. M. Campbell, Response of *Phorodon humuli* to yellow and to green hop foliar colours 95
Book reviews 101
Announcement 103
M. E. Quentin, J. L. Spencer & J. R. Miller, Bean tumbling as a control measure for the common bean weevil, *Acanthoscelides obtectus* 105
J. L. Flexner, P. H. Westigard, P. Gonzalves & R. Hilton, The effect of groundcover and herbicide treatment on twospotted spider mite density and dispersal in southern Oregon pear orchards 111
D. Obeng-Ofori, Analysis of orientation behaviour of *Tribolium castaneum* and *T. confusum* to synthetic aggregation pheromone 125
A. Rabossi, G. L. Boccaccio, P. Wappner & L. A. Quesada-Allué, Morphogenesis and cuticular markers during the larval-pupal transformation of the medfly *Ceratitis capitata* 135
D. A. J. Teulon & D. R. Penman, Effects of temperature and diet on oviposition rate and development time of the New Zealand flower thrips, *Thrips obscuratus* 143
R. R. Farrar, Jr. & G. Kennedy, Inhibition of *Telenomus sphingis* an egg parasitoid of *Manduca* spp. by trichome/2-tridecanone-based host plant resistance in tomato 157
M. Mazor, M. Harel, S. Levsky & E. Dunkelblum, Sex pheromone components of female *Cornutiplusia circumflexa* 167
S. Via, Variation between strains of the flour beetle *Tribolium castaneum* in relative performance on five flours 173
L. W. Kitch, R. E. Shade & L. L. Murdock, Resistance of the cowpea weevil (*Callosobruchus maculatus*) larva in pods of cowpea (*Vigna unguiculata*) 183
S. Kambhampati & K. S. Rai, Patterns of morphometric and allozyme variation in *Aedes albopictus* 193
D. J. Bergvinson & J. H. Borden, Glyphosate-induced changes in the attack success and development of the mountain pine beetle and impact of its natural enemies 203

P. G. Allsopp, Binomial sequential sampling of adult *Saccharicoccus sacchari* on sugarcane 213
P. Witzgall, M. Bengtsson, H.-R. Buser, P.-J. Chambon, E. Priesner, T. Wildbolz & H. Arn, Sex pheromones of *Spilonota ocellana* and *Spilonota laricana* 219
M. M. Diawara, B. R. Wiseman & D. J. Isenhour, Mechanism of whorl feeding resistance to fall armyworm among converted sorghum accessions 225
E. Bartlet & I. H. Williams, Factors restricting the feeding of the cabbage stem flea beetle (*Psylliodes chrysocephala*) 233
F. P. Neupane & D. M. Norris, Sulfhydryl-reagent alteration of soybean resistance to the cabbage looper, *Trichoplusia ni* 239
L. R. Romanow, O. M. B. de Ponti & C. Mollema, Resistance in tomato to the greenhouse whitefly: analysis of population dynamics 247
S. K. Asante, W. Danthanarayana & H. Heatwole, Bionomics and population growth statistics of apterous virginoparae of woolly apple aphid, *Eriosoma lanigerum*, at constant temperatures 261
A. P. Del Socorro & P. C. Gregg, Nocturnal behaviour of female *Mythimna convecta* 271
G. Szöcs, V. Búda, P. Charmillot, P. Esbjerg, B. Freier, R. Gottwald, B. Kovalev, S. Maini, M. G. Solomon, O. Sorum, M. Subchev, M. Tóth & M. van de Veire, Field tests of (*E,Z*)-3, 13-octadecadien-1-ol acetate: a sex attractant synergist for male currant borer, *Synanthedon tipuliformis* 283
J. D. Barbour, R. R. Farrar Jr. & G. G. Kennedy, Interaction of fertilizer regime with host-plant resistance in tomato 289
Short communications
